1. COMPANY OVERVIEW

Bremiq Supplies Ltd is a Kenyan medical supplies company that helps healthcare facilities source quality medical equipment, laboratory products, diagnostic devices and clinical consumables from trusted manufacturers. We serve hospitals, clinics, laboratories, NGOs, county governments and other institutions across Kenya through transparent procurement, competitive pricing and dependable delivery.

Founded with a commitment to bridge critical healthcare infrastructure gaps across Kenya, Bremiq Supplies partners with internationally recognised manufacturers meeting CE, ISO and other applicable quality standards — delivering reliable, high-grade products to a wide range of medical institutions and procurement officers who demand absolute reliability.

Our Mission

To elevate healthcare standards in East Africa by consistently delivering innovative, certified, and cost-effective medical equipment and supplies through a responsive, transparent supply chain built on trust.

Our Vision

To be the trusted provider of innovative and reliable medical equipment and healthcare products — empowering healthcare professionals to deliver exceptional patient care and improve health outcomes across Kenya.

2. WHO WE SERVE

We supply healthcare products to a wide range of institutions across Kenya:

- Public hospitals
- Private hospitals
- Medical centres
- Clinics
- Diagnostic laboratories
- NGOs
- County governments
- Universities
- Research institutions
- Pharmacies

3. OUR SERVICES

Bremiq Supplies offers end-to-end procurement and supply solutions for the healthcare sector:

- **Medical equipment supply** — Sourcing and delivery of clinical and surgical equipment for all facility types.
- **Laboratory equipment supply** — Analytical and diagnostic instruments for clinical and research laboratories.
- **Hospital furniture** — Beds, trolleys, cabinets and other clinical furniture for healthcare environments.
- **Diagnostic products** — Point-of-care kits, rapid tests and diagnostic devices.
- **Installation coordination** — Logistics support for equipment delivery and on-site setup.
- **Tender fulfilment** — End-to-end support for government and institutional procurement tenders.
- **Bulk institutional procurement** — Volume purchasing tailored for large facilities, NGOs and county governments.
- **Product sourcing** — Technical sourcing for specialised or hard-to-find medical items.
- **After-sales support** — Post-delivery assistance, orientations and ongoing supply continuity.

4. WHY BREMIQ

7. PROCUREMENT & QUOTATION PROCESS

Requesting pricing for bulk procurement or institutional tenders is straightforward:

Step 1 — Submit an RFQ

Visit <https://bremisupplies.com/request-a-quote> to select items, specify quantities and attach official LPOs or specification sheets.

Step 2 — Receive a Quotation

Our team generates an official proforma invoice or quotation and sends it directly to your institutional email address.

Step 3 — Dispatch & Delivery

Upon order confirmation, items are dispatched and delivered to your designated facility, with after-sales support where required.

Ready to Source Quality Healthcare Products?
